

Are You Travelling Soon?

- ❑ Reduce emissions when you can, but offset the rest!
- ❑ If you are travelling soon, go to www.begreennow.com and offset your carbon emissions.
- ❑ It's as easy as:

1. Select this

2. Then this

3. Select type of travel
(car or air)

4. Input your
travel information

5. 3.39 metric tons of CO₂!
Click here to offset them!
Only \$14 or 75 dkk, that's
the price of just 3 lattes!

Calculate Air Travel

About 226 million metric tons of CO₂ are emitted per year from jet fuel use. That accounts for about 12% of the total U.S. CO₂ emissions created by the transportation sector annually.

Enter the cities you traveled to in the past year.

Or Enter Bulk Flight Total

From	To	R/T	Qty	CO ₂ Emissions
CPH	TFS	Yes	4	3.39 Tons

CO₂ Emissions from Air Travel: 3.39 Tons

Your Footprint vs National Average

Total Annual CO₂ Emissions Calculated = **3.39** Metric Tons
